Aqara

Water Leak Sensor

Water Leak Sensor
Quick Start Guide

Product Introduction

Aqara Water Leak Sensor detects water leak and flooding and monitors the status of water leak. When the water leak or flooding occurs, it sends an instant alert notification via app. It also works with other smart accessories to automate your home.

*A hub is required.

*Aqara Hub is required to enable Aqara Water Leak Sensor to work with HomeKit technology. See www.aqara.com for more details.
*This product is for indoor use only.

Indicator Light
Reset Button
Long Press for 5s: Reset
Single Press: Effective Range Test

Inductive Probe

Quick Setup

1. Please add the Hub to the app according to the Hub Quick Start Guide.

2. Please open the app, tap "Home" and then tap "+" in the top right corner to enter "Add Device (Accessory)" page. Select "Water Leak Sensor", and add it according to instructions.

   *If the connection fails, please move the accessory closer to the Hub and try again.
Installation

Effective Range Test: Single press the reset button on the accessory at your desired position. If the Hub makes voice prompts, it indicates that the accessory can communicate effectively with the Hub.

*Avoid metal surface to maximize signal strength.

Option 1: Place it directly on the surface where you need to monitor water leak.

Option 2: Use a hex screwdriver to loosen the probes, and connect to cables for more smart scenes.

*The antenna is right above the water drop icon.

Specifications

Model: SJCGQ11LM
